EXPERIMENT NO: 1 AZURE DEVOPS ENVIRONMENT SETUP

AIM:

To access the Azure portal and set up the Azure DevOps environment by creating a new organization.

PROCEDURE:

1. Open a web browser such as Google Chrome or Microsoft Edge.
2. Navigate to the Microsoft Azure portal by entering the URL in the address bar.
3. Log in using a valid Microsoft account credentials.
4. Once logged in, the Azure home page (dashboard) will be displayed.
5. Locate the search bar at the top of the Azure portal.
6. Type **Azure DevOps Organizations** in the search bar and press Enter.
7. From the search results, select the appropriate option to open the DevOps Organizations page.
8. Click on **My Azure DevOps Organization** link.
9. If no organization exists, click on **Create Organization**.
10. Enter the required details such as organization name, region, and other necessary information.
11. Verify the entered details and click on **Continue** or **Create** button.
12. Wait for a few seconds while the organization is being created.
13. After successful creation, you will be redirected to the Azure DevOps Organization Home page.
14. Explore the dashboard which contains services like Boards, Repos, Pipelines, and Artifacts.
