EXP NO: 1 AZURE DEVOPS ENVIRONMENT SETUP

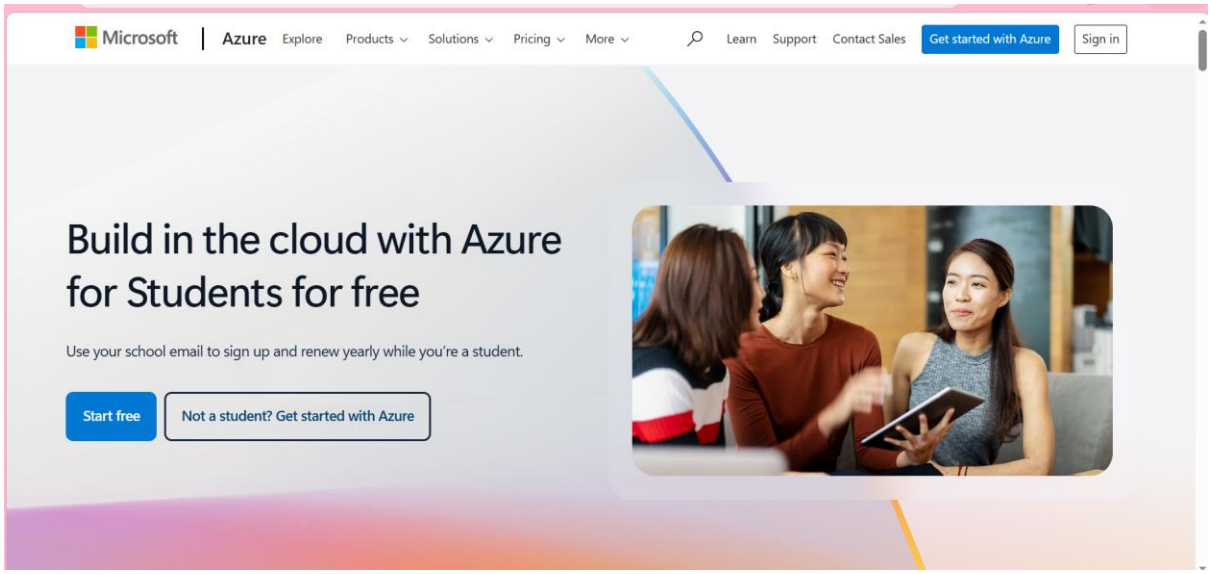
Aim:

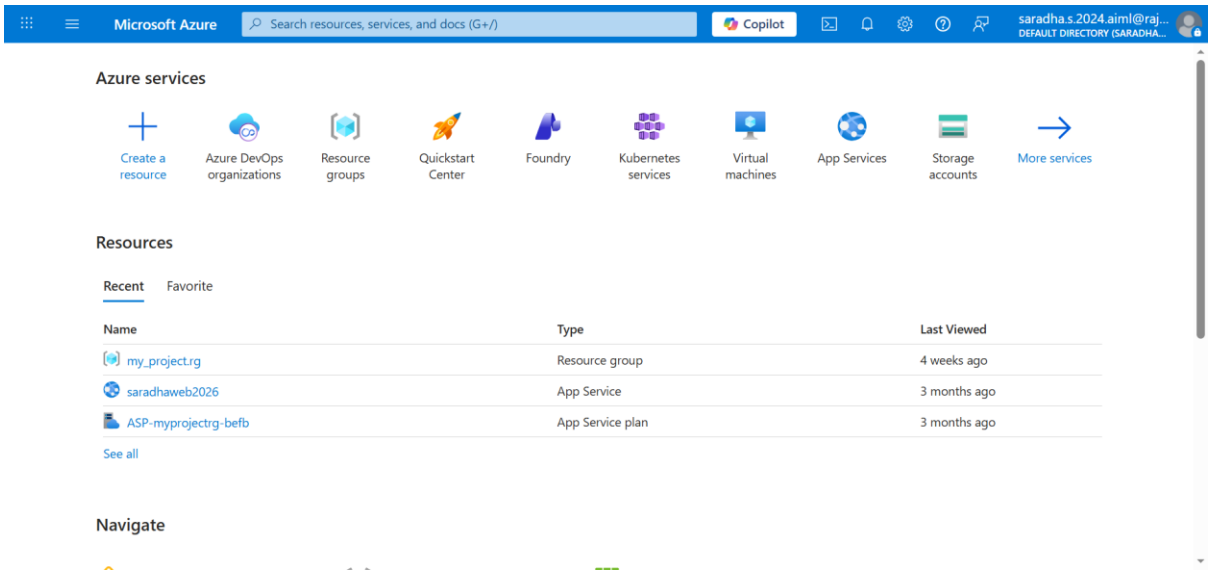
To set up and access the Azure DevOps environment by creating an organization through the Azure portal.

Procedure:

1. **Open Azure Portal:**
   - **Launch a web browser and navigate to the Azure website: https://azure.microsoft.com/en-us/get-started/azure-portal**
2. **Sign in to Microsoft Account:**
   - **Enter your Microsoft account credentials to log in.**
   - **If you do not have an account, create one using: https://signup.live.com/**
3. **Access Azure Home Page:**
   - **After login, the Azure home page will be displayed.**
4. **Search for Azure DevOps:**
   - **In the search bar, type "Azure DevOps Organizations".**
5. **Open Azure DevOps Organizations:**
   - **Click on the Azure DevOps Organizations option from the results.**
6. **Create a New Organization:**
   - **Select "My Azure DevOps Organization".**
   - **Click on New Organization.**
   - **Provide required details such as:**
     - **Organization Name**
     - **Region**
   - **Accept the terms and conditions and proceed.**
7. **Access Organization Dashboard:**
   - **After creation, you will be redirected to the Azure DevOps Organization Home Page.**

- **Verify that the organization is successfully created.**





Result:

Successfully accessed the Azure DevOps environment and created a new organization through the Azure portal.
